11MINUTES

Pitch Deck

Problem

Play2earn games which are free2play don't let you earn enough money to make a living, while good paying play2earn games have a huge initial cost, not affordable for most players.

Most play2earn games have the same returning tasks everyday. Playing turns into doing the same tasks day by day, so playing turns into a form of working.

Solution

Creating a Game Series with totally new Games for each Session. Distributing big rewards funded by NFT Ticket Sales for Game Sessions. Adding a NFT Farming mechanism to let the NFT Tickets stay valuable after the Game Sessions.

Token Utilities

Token Staking

$ELVN will be used for staking and staking rewards with stable APY rates

NFT Minting

To mint Game Ticket NFTs and get into the game, you will need to use $ELVN token.

Play2Earn Rewards

The rewards for the daily and weekly game sessions will be paid in $ELVN

NFT Farming

To create extra rewards for players of the gaming sessions, even if they don’t reach a good spot in the leaderboard, the Game Ticket NFT’s will be useable for NFT Farming. The farming rewards will be paid in $ELVN

InGame Purchases

In future versions of the games you will be able to create your own character. To further individualize your character, the players will be able to buy skins and other accessoires with $ELVN

Tier System

11Minutes will also work as a launchpad for new play2earn games in the space. For taking part in those launches, users will need to buy Tier NFTs, which will only be purchaseable with $ELVN Tokens
